2. LOCATION:

V911 Wormhole (collapsed 23:04:52 02.04.111). Class 5 Unknown. Locus J235456.

3. OFFICERS AND LOCAL FORCES PRESENT:

Nkumi Ebar, System Commander, X-7OMU

4. CAPSULEER PRESENCE:

5. MEDIA:

ISD Article: Ducia Foundry Team Target of Mysterious Attack (NID:3870)

Although our media block has successfully kept the story out of local news broadcasts, an anonymous tip-off to the ISD has brought elements of it to attention of the capsuleers. ISD has once again cited their independence from CONCORD in publishing the article, and refuse to name the source of the leak. There is little we can do to force the issue without elevating its profile at the same time.

6. DRONE SURVEILLANCE:

See Attachment 1

7. ANALYSIS:

Current location of Sansha forces is unknown. Intelligence indicates that a large fleet arrived in X-7OMU through the V911 wormhole and then dispersed as smaller squads along multiple vectors.

8. PLANNED ACTIONS:

- > Increase surveillance across X-7OMU
- > Reinforce Pure Blind Division

9. ATTACHMENTS:

- 1 . Camera drone surveillance recorded at time of incursion.
