

Goonswarm Recruitment Office

Solodrakban is literally hitler

Joining 101

Before, recruitment was exclusive to those actively participating in the Something Awful community. However, one can only recruit so many people from a single internet forum, this is why from this day forth; recruitment will be fully open to the general public of New Eden.

Perks of becoming a Goon:

- Full access to all CFC regions: Deklein, Fountain, Branch & Tenal
- 100% reimbursement on ships lost during fleet operations.
- Fully upgraded systems, including full access to ABC ores. Rattig included!
- Are you a Capital pilot? We'll build you a titan at 75% standard cost. Details on internal forums
- Full access to the Goonwaffe WIKI – the most detailed EVE online wiki!
- Free Frigates, Skillbooks, PI Kits & implants for newer players (under 6m SP)

Getting a sponsor

Recruitment is now public, however that doesn't mean instant access to all of our intel, cap hangars and what-not for all you spies. We require you to hang out in our recruitment channel:

Goon-Recruitment

Once you're in the channel, get talking to existing members – inquire about getting a sponsorship into the corporation. Once you've found a Goon willing to be your sponsor, head over to <http://www.goonfleet.net>. Hit the [APPLY] button on the navigation bar, then following the guide on the next page!

GoonWaffe

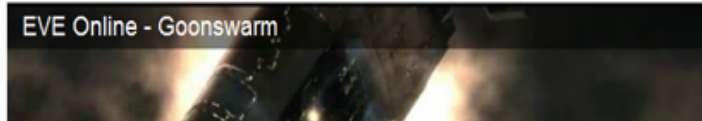

What is Goonwaffe?

Check the status of your application:

Goonwaffe is the internet.

Who are we? Goons, and Brosefs. A Goon is simply a member of the Something Awful forums. As an alliance we are a collection of corps with similarly minded people from internet communities, with many that just became our friends through the swirl of Eve Online gameplay.

EVE Online - Goonswarm

The Application

The hardest part is over; the rest is up to our lovely auth directors to process your application.

Remember, just because you have an application on the site, doesn't mean you should apply in game – only apply ingame once your goonfleet.net application tells you to do so.

When you first check your application, it should be in the processing stage.
