All Intel was gathered by me (Comptrekkie) from my months spent in WH space. I spent a lot of time with my Corp and a lot of time soloing in C3 WH's in my legion. All Anomaly Intel is 99% accurate because I run them quite often. Most of the signatures on here I have ran only a handful of times and some only once. If anyone finds any inaccuracies or spawns/triggers change and or variations please let me know in game or at Comptrekkie@hotmail.com . This guide is no guarantee and I am in no way responsible for any losses from following this guide. Although I will take responsibility for any gains, so maybe send a little my way ☺ I am in no way associated with CCP. **Updated 01Jan10.**
