Statistics

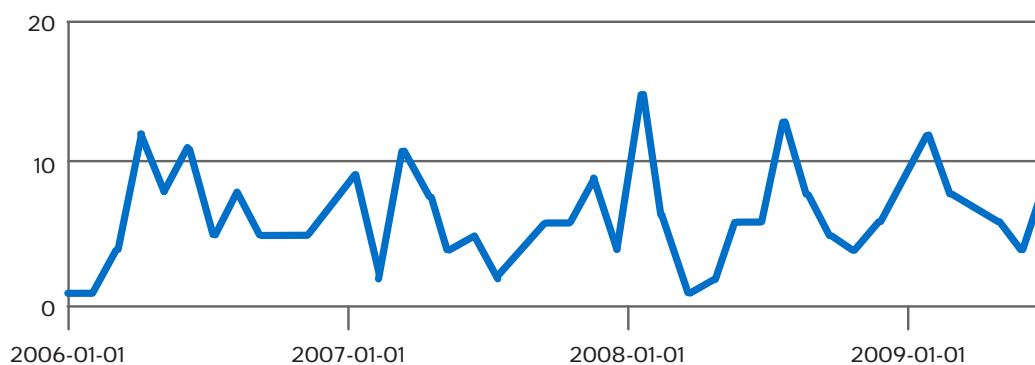

IPOs and bonds have a long history in the EVE discussion forums, dating back as far as 2004. In 2006 the Market Discussion forum became the premier venue for IPOs and the secondary market in EVE and has since then experienced a continually increasing level of activity.

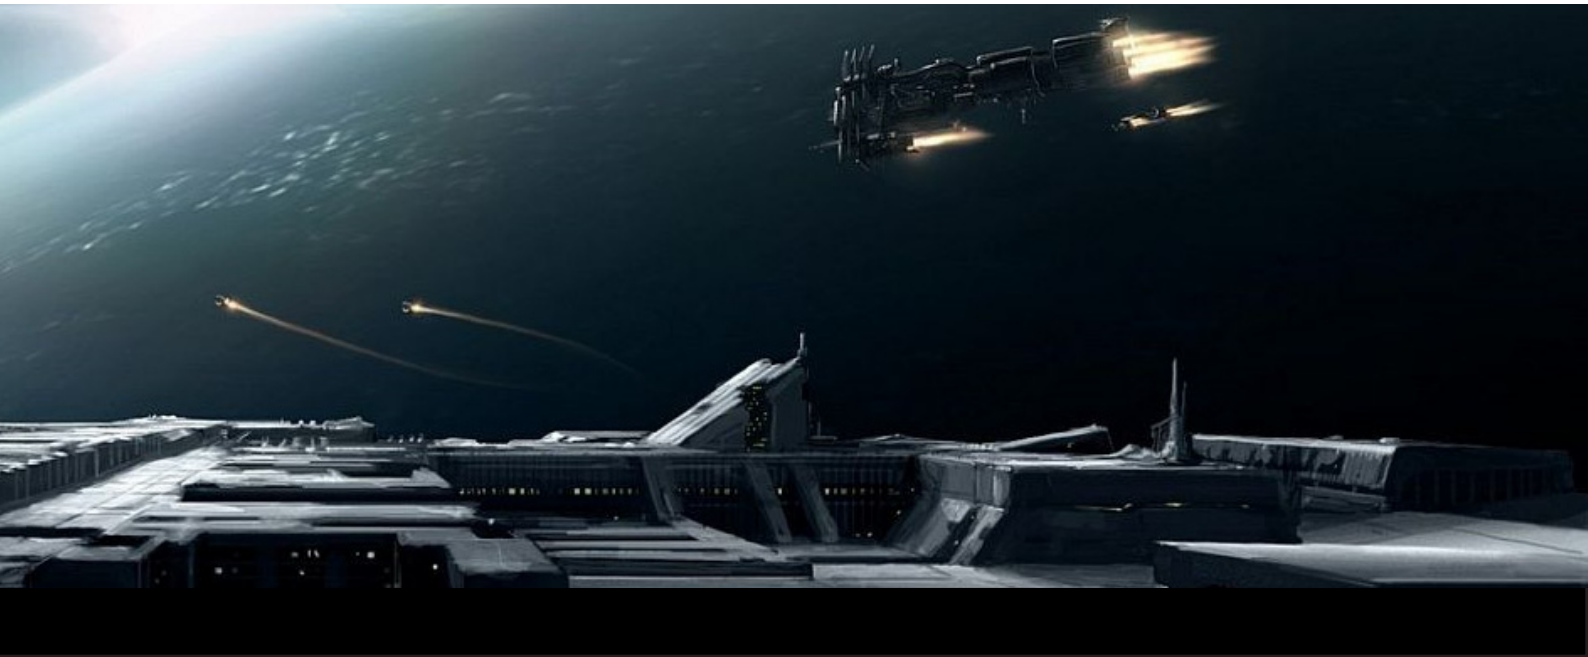

The following three graphs show the numbers of IPOs, bond offerings and loan requests in the EVE Market Discussion

forum from January 2006 through June 2009. While the number of IPOs has been pretty much stable over this period, there is a noticeable increase in the rate of new bond offerings and loan requests starting in 2008.

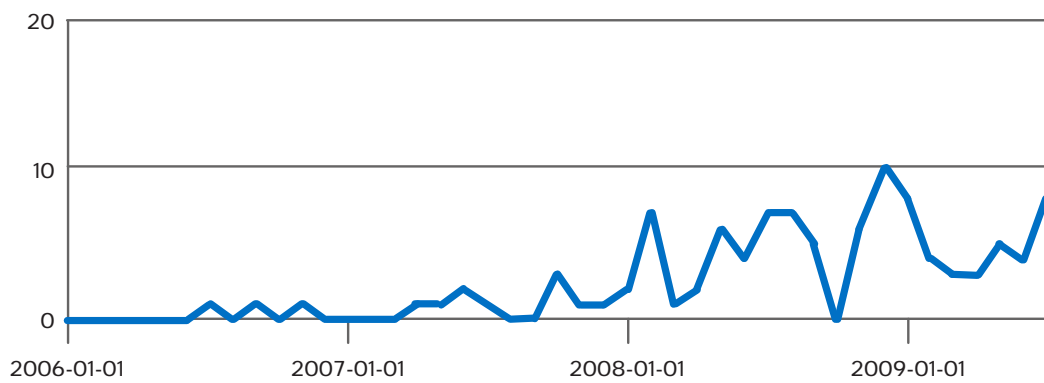

In total, there were 269 IPOs, 105 bond offerings and 48 loans requests. These were discussed in over 1,700 threads with almost 52,000 replies.

Number of IPOs January 2006 - June 2009

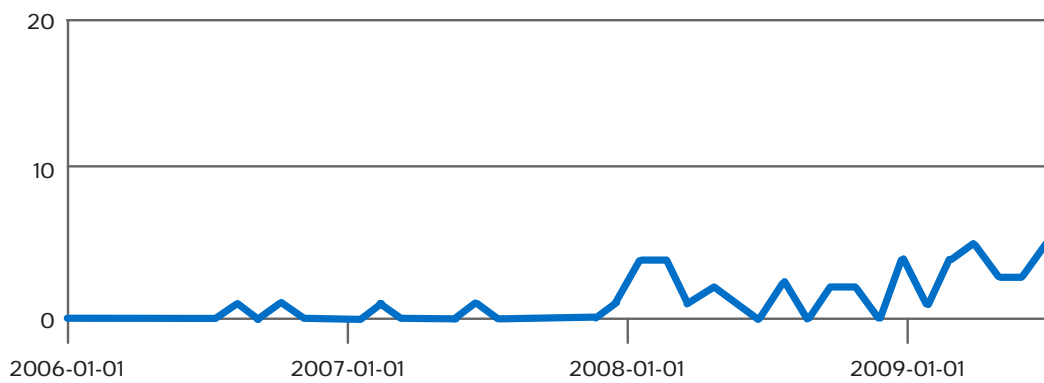

Number of Bond Offerings
January 2006 - June 2009

Number of Loan Requests
