I.e. At the start of every quarter, whichever investor owns the most shares will have the structure name dedicated to them.

I.e.a. A case when I.e. can be invalidated is when, at anytime during the quarter, another investor purchases at least half the shares of that structure.

I.e.b. A case when I.e. can be invalidated is when, at anytime during the quarter, the investor with the most shares trades or sells their shares so that they are no longer the major shareholder of that structure.

II. Investor Rights

II.a. An investor will have the right to inquire about how the funds are being used.

II.b. An investor will have the right to sell their shares to the supplier through a tradeback program at anytime for any reason. See IV.a. for tradeback details.

II.d.a. An investor will also have the right to be informed and updated on measures taken by I-RED to defend the structure.

III. Investor Protection Clause

III.a. In order to protect investor interests, a minimum return of investment will be paid at the end of each month regardless of how much the invested structure's services were utilized.

III.a.b. I-RED guarantees a monthly minimum return of 8.5% per share for the first twelve months.

III.a.c. For every month following the first twelve months, I-RED guarantees a monthly minimum return of 2.5% per share.

III.a.d. Both III.a.b. and III.a.c. only apply for as long as the invested structure remains in operation, and the investor owns shares consecutively.

III.b. In order to protect investor interests, a grace period will be enacted following the destruction of an invested structure; III.a. will still be valid for the remainder of the quarter during which the invested structure is destroyed, as well as one quarter thereafter, for a theoretical maximum of six months.

III.c. In order to protect investor interests, III.b. is invalidated only if the investor trades back their shares to I-RED or sells their shares to another investor during the grace period.

IV. Supplier Protection Clause

IV.a. In order to protect the interests of the supplier, I-RED, shares will be accepted on a tradeback basis for 25% the value of the share; this is to protect the supplier against investor manipulation.

IV.b. I-RED reserves the right to seize shares from investors under the suspicions of: manipulation, foul play, abuse, harassment, and danger presented to either I-RED or other investors; these behaviors will not be tolerated.

IV.c. I-RED reserves the right to terminate the participation of any investor under the suspicions of: manipulation, foul play, abuse, harassment, and danger presented to either I-RED or other investors; these behaviors will not be tolerated.

IV.d. I-RED reserves the right to exclude individuals from participating in the Operation Grey Steel© investment program in the interests of protecting I-RED and its investors from malevolence.
